

Accessories

Expansion Cables and Boost Power Supply Module

Description

Accessories for the MAQ[®]20 Industrial Data Acquisition and Control System include backbone expansion cables and a boost power supply module for systems that have power supply requirements greater than those the communications module provides.

Cables to interface 8B backpanels to the MAQ20-VSN module are also available.

A MAQ20 Demonstration Suitcase with process simulator is offered to sales channels.

Ordering Information

Backbone Expansion Cables

Model	Description
MAQ20-XCA-01	Backbone Expansion Cable; 1 meter
MAQ20-XCA-02	Backbone Expansion Cable; 2 meter

Boost Power Supply Module

Model	Description
MAQ20-PWR3	Boost Power Supply Module

Cables to Interface 8B Backpanels to MAQ20-VSN Module

Model	Description
MAQ20-8B25-0.3	DB25-to-20 pos screw term Transition Cable, 0.3m long
MAQ20-8B25-0.6	DB25-to-20 pos screw term Transition Cable, 0.6m long
MAQ20-8B25-01	DB25-to-20 pos screw term Transition Cable, 1.0m long

MAQ20 Demonstration Suitcase

Model	Description
MAQ20DEMO-B	MAQ20 Demonstration Suitcase with Process Simulator for Sales Channels
