

# Z-Series

## Multistandard signal isolator converters with universal power supply

The modules of the **Z Series** are reliable signal conditioners, oriented towards ease of use and installation.

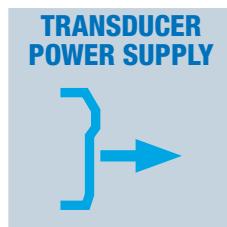

Available in multiple power standards, they respond to the most common interface and conditioning needs.

Most models are characterised by a 3-way galvanic separation equal to 1.5 kVac, reduced overall dimensions (standard width 17.5 mm), installation on DIN 42677 guide, extended temperature range, high precision and the possibility to power the sensors connected to them.

**Z Series** is the ideal solution for conditioning analog industrial, electric signals, from temperature sensors, from load, serial, digital and impulsive cells.

Vac/dc switching;  
measurement loop  
power supply

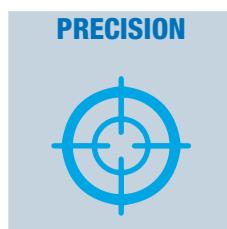

Loop power supply of  
current in output (min  
20 Vdc)

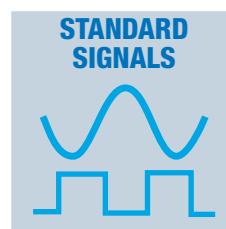

< 2.5 W

From kVac  
to 4kVac

Up to 0.1%

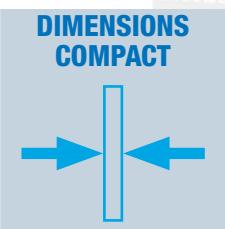

mA, mV, A, V, Ohms,  
RTD, TC, load cell, Reed,  
Pnp, Npn, Effect  
hall, photoelectric  
sens., imp.24V

Operating temperature  
up to -20..+65%,  
RH 90%

MTBF>500,000 h

Width 17.5 mm

# MULTISTANDARD ISOLATOR CONVERTERS - Z SERIES

The SENECA Z-Series converters offer 3 configuration modes.

Almost all the models allow configuration of the standard parameters by means of DIP switches accessible on the side of the instrument.

In addition, some models ensure expanded functionality that can be set using the "EASY SETUP" PC software.

Other models, equipped with Micro USB port on the front, are programmable via the App "EASY SETUP APP" for Android terminals.

# MULTISTANDARD ISOLATOR CONVERTERS - Z SERIES

## SOFTWARE & ACCESSORIES

### EASY SETUP

#### Configuration software

**Programmable models:**  
Z109REG, Z109REG2-1, Z109UI-2, Z109REG-BP, Z170REG-1, Z-SG, Z203-1, Z204-1, Z113-1, Z109PT2-1, Z109TC2-1

**Minimum hardware requirements:**  
CPU 1GHz, 256 MB free in HD, graphic board resolution 1024x769 pixel

- Automatic connection to the module
- Setting of operation and communication parameters
- Parameter monitoring
- Automatic configuration of modules
- Testing and replication of the configuration

### EASY SETUP APP

#### Configuration app for Android terminal

**Programmable models:**  
Z109REG2-1, Z109UI2-1, Z109REG-BP, Z170REG-1, Z109PT2-1, Z109TC2-1

**Android version:** 4.0 or later

**Compatible terminals:** Android Smartphone/Tablet with OTG function

**Download:** Google Play Store

- Automatic connection to the module
- Setting of operation and communication parameters
- Parameter monitoring
- Automatic configuration of modules
- Testing and replication of the configuration

## S117P1

### S117P1 SERIAL CONVERTER RS232↔USB, TTL↔USB, RS485↔USB

- Asynchronous serial conversion RS232, RS485, TTL
- Multiple connection possibility of multiple S117P1 units on the same PC
- USB 1.0, 1.1, 2.0 standard compatibility
- RS485 communication, max 32 nodes
- External modules power supply (100 mA, 12 Vdc)
- Supplied accessories: USB cable, TTL cable, driver CD

#### ORDER CODE

Code	Description
S117P1	Asynchronous serial converter RS232↔USB, TTL↔USB, RS485↔USB

## EQUALISATION AND CONNECTION SYSTEM FOR LOAD CELLS

#### ORDER CODE

Code	Description
SG-EQ4	Equalisation board and connection up to 4 load cells in parallel
SG-EQ4-BOXPG7	Equalisation board and connection up to 4 parallel load cells + IP67 containment box complete with cable glands with 7 mm diameter and 2 hole covers

## Z-POWER

### 19 Vac transformers for DIN guide mounting

- Primary voltage 230 (115) Vac ± 10% Housing in self-extinguishing thermoplastic material (class V-0)
- Protection with thermal fuse
- Dimensions 3 DIN modules (15 VA), 5 DIN modules (25 VA)
- Dimensions 3 DIN modules (15 VA), 5 DIN modules (25 VA)
- IP 40

#### ORDER CODE

Code	Description
Z-POWER 230-15VA	Transformer 19 Vac, 230-15 VA
Z-POWER 230-25VA	Transformer 19 Vac, 230-25 VA
Z-POWER 115-15VA	Transformer 19 Vac, 115-15 VA

## Z-SUPPLY

### Power supply switching monophase 24V @ 1.5 A

- Input: 110..230 Vac @ 47-63 Hz 0,7 A; 110..315 Vdc, 0,7 A
- Output: 24 Vdc ± 2%
- Redundancy In parallel with two Z-SUPPLY modules (only from IDC10 connector)
- Output current: 1.5 A
- Output control: "Power Good" output relay
- Internal fuse: 1.25A T-type (delayed)
- Assembly: On DIN guide 46277
- Insulation: Up to 3KV in output and output voltage

#### ORDER CODE

Code	Description
Z-SUPPLY	Power supply switch monophase 24V @ 1.5 A

## CABLES

#### ORDER CODE

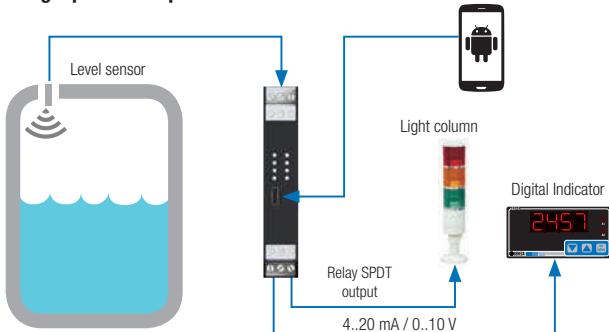

Code	Description
CS-JACK-DB9F	Programming serial cable (Jack / DB9F)
CU-A-MICROB	Cable plug USB-A Micro USB-B 5 P
CU-A-MICRO-OTG	Adapter cable Micro USB OTG – USB Female A type

# MULTISTANDARD ISOLATOR CONVERTERS - Z SERIES

## APPLICATION EXAMPLES

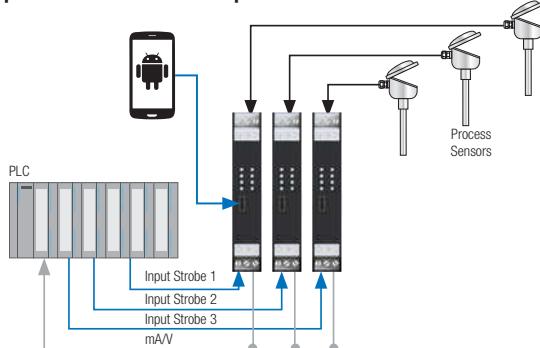

### Z109REG2-1

Isolation and conversion with alarm threshold on analog input and output retransmission on indicator

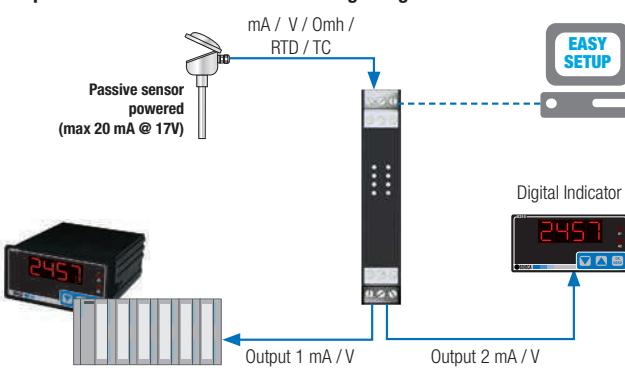

### Z109REG2-1

Isolation and analog conversion with function of multiplexer on retransmitted output

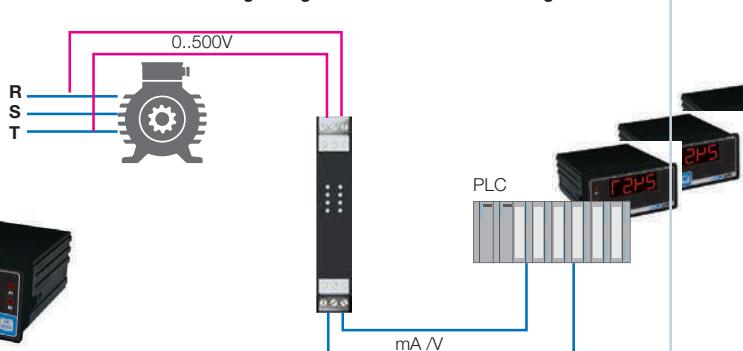

### Z170REG-1

Duplication and retransmission of analogue signal

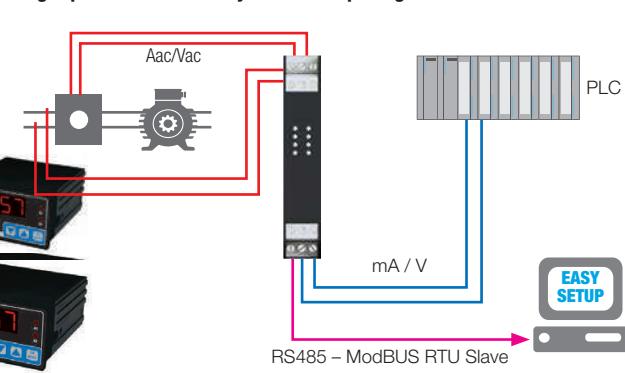

### Z202

Conversion of the alternating voltage into a normalised mA/V signal

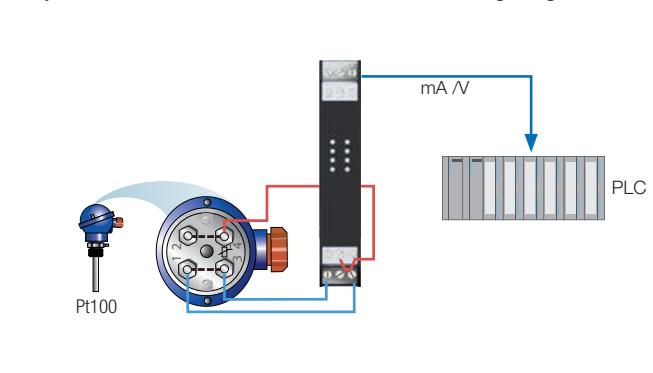

### Z203-1

Single-phase network analyser with output signal retransmission

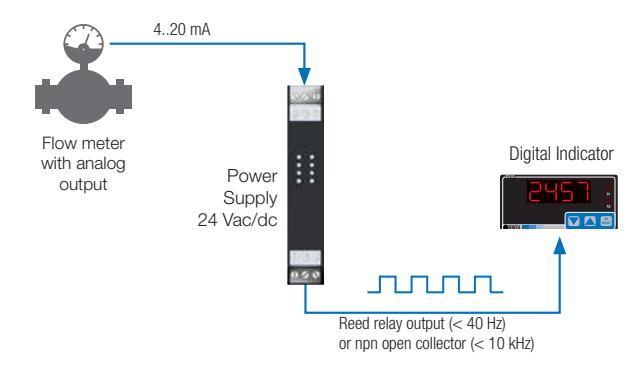

### Z109PT2-1

Temperature conversion from Pt100 into a standard analogue signal

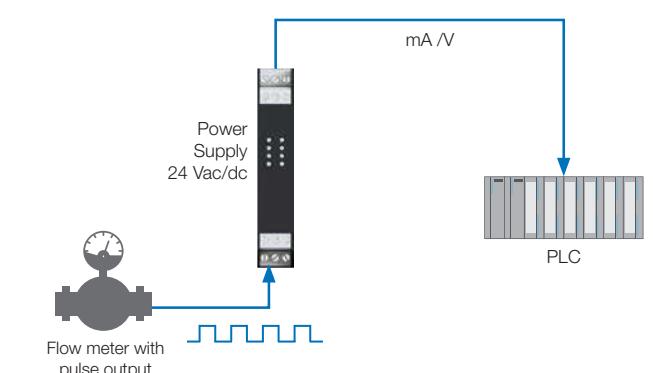

### Z104

Pulse count from flow meter with analogue output

### Z111

Instantaneous flow acquisition from meter with pulse output
